## The power to meet any high-volume challenge

Trust the SAVIN<sup>®</sup> Pro C901/C901s Graphic Arts + to deliver exceptional quality and performance no matter how large or complex your applications. Robust engine construction provides the reliability and durability your production-class environment needs. Wide media versatility and professional in-line finishing options expand the range of jobs that you can accept. Powerful EFI Fiery print controllers offer advanced color and job management tools to execute sophisticated document assembly and VDP workflows with ease. The SAVIN Pro C901s adds integrated fullcolor scanning, copying, and document storage to meet image capture and print-on-demand requirements. Both systems also employ Savin's next-generation oil-free imaging technologies to produce output with near-offset quality while minimizing costs.

The SAVIN Pro C901/C901s Graphic Arts + - it's up to any challenge.

## Maximum productivity for high-volume environments

## Quality, flexibility and productivity

Print at 90 ppm regardless of media type, weight or when duplexing — and always at 1200 x 1200 dpi (productivity may be affected with paper weights between 300–350 g/m<sup>3</sup>). Savin's PxP<sup>™</sup> chemical toners and oil-free fusing technology deliver near-offset results with smaller, more uniform toner particles for sharper images and better fills with a matte finish. Quickly replace high-capacity toner bottles and reload paper trays while running for uninterrupted performance. Achieve consistent image quality with advanced image stabilization, single direction development, mechanical paper registration, enhanced fusing technologies, automatic calibration adjustments, and more.

## Wide variety of media handling features

Execute full-bleed printing with support for media up to 13" x 19". Expand capacity with up to 7 media pick points and a maximum of 11,000 sheets. Create durable directmail, cards, menus, and booklet covers with support for heavy and textured media — even duplex onto stocks up to 350 g/m<sup>2</sup>. The new Paper Library feature lets you apply settings by selecting a preset or custom media type to optimize quality and minimize mistakes (integrates with Fiery Paper Catalog on a connected EFI controller). Ensure precise paper feeding with Air-Assist Feeding technology while built-in De-Curling, Paper Registration, and Skew Control provide accurate registration. Configure your system with professional in-line finishing options to fully automate binding, punching, and stacking for up to 13,000 pages.

## **Production-class construction and performance**

Handle the toughest workloads and diverse workflows with maximum reliability and dependability. The welded steel frame provides exceptional strength to handle up to 350,000 impressions per month. Reduce costs and maintenance requirements with long-lasting supplies and consumables. Each toner bottle is replaced individually in seconds and yields up to 67,000 pages at a realistic 8.75% coverage factor. Operate at peak efficiency with Trained Customer Replaceable Units (TCRUs) that maximize system uptime by enabling trained customers to replace key imaging components without waiting for service. Process volumes of hardcopy originals with a full suite of image-capture, digital copying, print-on-demand, and electronic document distribution functions. Command attention with an elevated Operator Call Light that's visible from any point of view.

## Robust performance in a modular design

- Professional Inline Finishing Capabilities: Choose from a variety of finishing options to design a complete endto-end document production solution that matches your applications. In-line finishing maximizes system speed and reduces labor costs, allowing your staff to be more productive and your business more profitable. The SR5000 Finisher (shown) brings production-level finishing to highvolume environments with 100-sheet multi-position stapling, optional hole punching, plus a 3,000-sheet Shift Tray for long periods of unattended operation. For more advanced finishing needs, the SAVIN Pro C901/C901s offers these professional binding options:
  - RB5000 Ring Binder: Automatically punches, collates and applies your choice of two ring sizes to 50-100 sheet documents.
  - SR5020 Booklet Finisher: Offers multi-position stapling of up to 100 sheets, stacking of up to 2,500 sheets, saddle-stitch finishing and folding — plus an optional Trimmer Unit for a flush finished edge.
  - GBC StreamPunch Pro: Provides a variety of interchangeable die sets to punch pages individually, then bind off-line.
  - GB5000 Perfect Binder: Hot glues books up to 400 pages with cover, and three sided trim.
  - Full Automatic In-line Booklet Maker: Savin's partnership with Plockmatic International AB provides in-line finishing, folding and 3-side trimming of booklets up to 30 sheets.

- 2 High-Capacity Stacker: Enable longer unattended jobs with a 5,000-sheet stacking capacity. Add a second optional High Capacity Stacker unit in a tandem configuration to provide an enormous 10,000-sheet stacking capacity. Each stacker includes one roll-away cart to easily move large volumes of output up to 350 g/m<sup>2</sup> for off-line binding or packing and shipping. For added security, the stacker door can be locked when printing valuable documents such as financial instruments, voting ballots, diplomas, and coupons.
- 3 Simplified Toner Replenishment: Easily replace high-yield toner bottles in one step. Featuring a sub-hopper design, users can replace supplies while the system is running for non-stop productivity.
- 4 Main Unit: Maximize productivity at 90-ppm/ cpm. Solidly built for lasting value, this heavyduty engine provides 1200 dpi image quality and supports media up to 350 g/m<sup>2</sup>. Savin's integrated @Remote diagnostic solution automates meter reading and enables proactive service and support for maximum uptime.

			4	1 2
Savin Pro Graphic Arts	C901/C901s			

- 5 Elevated Operator Call Light: Visually alert operators to changes in system status for prompt attention.
- 6 User-Friendly Job Programming: The intuitive control panel features a full-color 10.4" touch-screen LCD and clearly organized function keys for simplified operation. Easily manage system functions and job queues, and with the Pro C901s, control copy/scan settings and preview document storage/print-on-demand tasks right at the device.
- 7 High-Speed Full-Color Scanning with 100-Sheet ADF: Quickly capture hardcopy originals for copying, editing, storage, or electronic document distribution. The Automatic Document Feeder scans stacks of images as fast as 75 originals-per-minute in full-color, grayscale, or black & white to put users in total control of file size and image quality for every application. (Standard on the SAVIN Pro C901s only.)

5

- 8 4,000-Sheet Large Capacity Tray with Air-Assist Feeding: Dual 2,000-Sheet drawers accept media up to 13" x 19" for the production of full-bleed pages with space for crop marks and color bars. Built in Air-Assist technology provides reliable feeding of very thin as well as coated stocks up to 350 g/m<sup>2</sup> in weight. (Standard on the SAVIN Pro C901s, optional on the SAVIN Pro C901).
- 9 500-Sheet Multi-Bypass Tray: Conveniently feed stocks for inserts, colored pages, special media, or short-run jobs without changing an in-line paper source. The Multi-Bypass Tray rests on an optional 13" x 19" Large Capacity Tray.
- **Secondary Large Capacity Tray (Optional):** Highvolume environments can add a second 4,000-Sheet Large Capacity Tray to raise media capacity to a maximum of 11,000 sheets for a virtually limitless supply. This option is required for configuration with the 500-Sheet Multi-Bypass Tray. Customers with 8.5" x 11" print-only workflows and mixed-media requirements can substitute the Letter Large Capacity Tray with three trays totaling 4,550 sheets.

# Proven workflow solutions for every application

## The brain behind the brawn

Savin's premier Next Generation Architecture Controller is the brain behind the Pro C901/C901s. This powerful integrated controller is dedicated to maintaining optimal image quality and peripheral performance, managing media supplies, and enabling communication with administrators to securely configure network and device settings. In the SAVIN Pro C901s, the Next Generation Architecture Controller also manages the system's robust scanning, copying, and document storage and distribution feature sets.

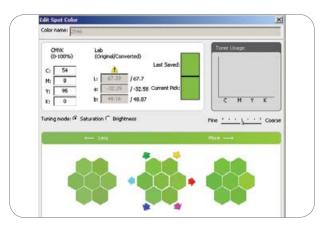

## Total control over processing and printing

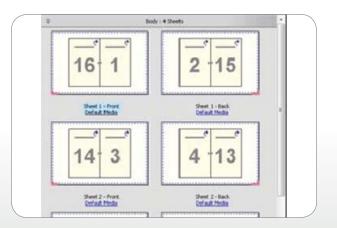

Choose from two powerful EFI Print Controllers to suit your workflow, featuring the latest Fiery System FS-100Pro software. Streamline workflows with the latest job management tools such as EFI Command Workstation 5.4, HotFolders, Virtual Printers, plus Fiery JDF support for job ticketing standards, and more. Achieve precise color matching with other output devices or proofing applications with ColorWise Pro Tools and the Fiery Graphic Arts Package. Manage complex assembly jobs with utilities such as Fiery Impose and Compose to simplify the production of paginated documents, define gang-up styles and delivery options, and more. Access a complete suite of embedded Fiery scanning and document distribution capabilities for paperless workflows.

## Optimize performance for color-critical applications

Production environments with more sophisticated applications can step up to the EFI Fiery E-82 Print Controller to manage every job with graphic arts quality and exceptional speed. Leverage the Quad-Core architecture to speed the processing of large jobs or simultaneously RIP one file while processing another. Achieve precise color management with the standard Graphic Arts Package Premium Edition and other professional-grade tools for color calibration, matching, and proofing. Specify up to 250 Spot Colors per page, identify ICC profiles, and choose from a number of improved color simulation methods for exact color reproduction. Generate error-free PDFs from any file with Adobe<sup>®</sup> PDF Print Engine (APPE 2.5). Eliminate missing graphic elements caused when files include tables, multiple layers, or text builds.
